# Kitchens & Baths

Magnificent Kitchens and Luxurious Bathrooms  
Created by the Nation's Finest Designers

For a busy family who loves to entertain, we had the fun opportunity to transform the first floor of a Northbrook, Illinois house built in 2001 into the ultimate in “modern bohemian farmhouse” living. GOGO and Kitchen Design Partners worked our magic, together with Macnon Builders, to transform the dated, early 2000s-style finishes into an eclectic celebration of old and new – while prioritizing the clients’ practical needs and bringing innovative design-build expertise to the project every step of the way. To open the space, we demolished existing walls, columns and arches, and enlarged the opening between the kitchen and breakfast room for improved access to the new fully equipped beverage center. We also installed salvaged beams and shiplap on the ceilings to bring in that farmhouse flavor juxtaposed with unique lighting and a mix of cabinetry styles for a unique modern-boho vibe.
